PREFACE

The Annual Report of the Trade of Canada for the fiscal year ended March 31, 1922, has been compiled on the same general plan as the two preceding issues, but several new features have been introduced.

A permanent change of some importance is the use, in the detailed tables, of a revised classification of imports and exports. The basis of classification is the same as heretofore, viz.—*component material*; and the Main Classes and most of the sub-classes remain unchanged. The relative order, however, of the sub-classes has been somewhat altered. The Main Class of "Vegetable Products" (now described as "Agricultural and Vegetable Products") has been divided into two sections, viz.—"A—Mainly Food" and "B—Other Than Food". This division and certain minor changes in the classification have been made to render the report more easily handled and generally useful. A number of new items have been added to both the import and export classifications.

A temporary feature of this issue is the introduction into the main detailed tables of statistics for the fiscal year 1914. Thus, this report gives detailed statistics for the last complete fiscal period before the war side by side with those for the last fiscal year (1919) chiefly affected by war-time conditions and with those for the three fiscal years completed since the cessation of hostilities. The tables illustrate in concise form the relation of the pre-war and post-war states of commercial exchange between Canada and other countries.

The report, as heretofore, is divided into three sections:

(1) SUMMARY TABLES: The summary tables, twenty-five in number, give (a) a general historical review of Canada's trade from Confederation; and (b) an analysis of current trends, generally over a five-year period.

(2) DETAILED TABLES: The detailed tables are two in number. The first table contains detailed information respecting all commodities Imported into Canada for consumption, with countries whence received, for the fiscal years ended March 31, 1914 and 1919 to 1922, the figures for 1922 being expanded to show the amount of each commodity Imported and the Duty collected thereon under the General, Preferential and Treaty Tariffs. The second table gives details of all Canadian commodities Exported, with country of destination, for the fiscal years 1914 and 1919 to 1922; also exports of Foreign commodities for 1921 and 1922.

(3) SPECIAL ANALYSES: Two special analyses are added showing, for the fiscal year 1922, (a) the imports and exports of Canada, by main classes and degree of manufacture, classified according to *Origin*, and (b) the imports and exports, by classes and sub-classes, classified according to *Purpose*.

The format is identical with that of the report for 1921, and the text appears in both English and French.

The report was compiled in the External Trade Branch of the Dominion Bureau of Statistics under the direction of Mr. W. A. Warne, B.A., Chief, and Mr. Ernest Green, Assistant Chief of the branch.

PRÉFACE

Le Rapport annuel sur le commerce du Canada, pour l'exercice budgétaire clos le 31 mars 1922, a été compilé sur le même plan général que les deux éditions précédentes, mais il contient cependant plusieurs innovations.

Un changement permanent et important consiste en l'usage, dans les tableaux de détail, d'une classification révisée des importations et exportations. La base de cette classification demeure la même qu'autrefois, savoir "*l'élément principal*"; les catégories principales et la plupart des sous-catégories n'ont pas varié, quoique l'ordre relatif des sous-catégories ait été quelque peu modifié. La catégorie des "substances végétales" (maintenant appelées "produits agricoles et substances végétales"), a été divisée en deux sections, savoir "A—Alimentaires" et "B—Autres qu'alimentaires". Cette division, et certains minimes changements dans la classification ont été faits pour faciliter les recherches. Quelques nouveaux item ont été ajoutés, tant aux importations qu'aux exportations.

Cette édition se distingue des précédentes par une intéressante innovation; en effet, elle contient les statistiques détaillées des importations et exportations pour l'exercice 1914. De la sorte, ce rapport nous renseigne exactement sur le dernier exercice clos avant la guerre, sur l'exercice financier de 1919, dernière année de guerre, et enfin, sur les trois exercices écoulés depuis la cessation des hostilités.

Les tableaux présentent, sous une forme concise, le contraste entre les échanges commerciaux du Canada avec les autres pays, tant avant la guerre qu'après la guerre.

Comme précédemment, ce rapport est divisé en trois parties:

(1) TABLEAUX D'ENSEMBLE: Les vingt-cinq premiers tableaux constituent une revue rétrospective; ils contiennent (a) un relevé des échanges commerciaux du Canada, en remontant jusqu'à la Confédération et (b) une analyse, sous différents angles, des fluctuations actuelles et récentes, couvrant généralement une période de cinq ans.

(2) TABLEAUX DE DÉTAIL: Ils sont au nombre de deux; le premier contient les détails relatifs à toutes les marchandises importées au Canada pour la consommation, avec indication des pays de provenance, pendant les exercices clos les 31 mars 1914 et 1919-1922, les chiffres de 1922 étant présentés de manière à spécifier la quantité de marchandises importées de chaque pays, sous les tarifs «général, préférentiel ou de traité», ainsi que le montant des droits de douanes perçus dans chaque cas. Le second tableau relate l'exportation de toutes les marchandises exportées du Canada, ainsi que les pays de destination pendant les exercices terminés le 31 mars 1914 et 1919-22, ainsi que les réexportations de marchandises étrangères en 1921 et 1922.

(3) ANALYSES SPÉCIALES: Deux tableaux analytiques se rapportant à l'exercice 1922 indiquent (a) les importations et exportations du Canada, par catégories principales et degré de fabrication, classifiées selon leur "source ou origine" et (b) importations et exportations par catégories et sous-catégories classifiées, selon leur "usage et destination".

Le format est identique à celui du rapport de 1921 et le texte français accompagne partout le texte anglais.

Le rapport a été compilé sous la direction de M. W. A. Warne, B.A., chef de la section du Commerce extérieur, du Bureau Fédéral de la Statistique, et de M. Ernest Green, chef adjoint.

EXPLANATORY NOTES

In this report, throughout, the term "Imports" means "Imports for Consumption".

The term "Entered for Consumption" is the technical term in use at the custom-house, and does not imply that the goods have been actually consumed in Canada, but that they have passed into the possession of the importer and that duty has been paid on that portion liable for duty.

The value given for goods imported is the fair market value thereof when sold for home consumption in the principal markets of the country whence and at the time when the same were exported directly to Canada.

The term "Canadian Produce" includes all imported articles which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat, and articles constructed or manufactured from imported materials.

The term "Foreign Produce" applies to the exports of foreign goods which had been previously imported.

The value of "Canadian Produce" is its value at the time of exportation at the ports of Canada whence shipped.

The value of "Foreign Produce" is the actual cost of such goods.

In this report, the tables of imports and exports at the several ports of entry indicate that merchandise of the value stated was *entered inwards* or *passed outwards* at the ports mentioned, but do not imply that the imports were all for consumption at such ports or that the exports originated there.

The initials N.E.S. mean "not elsewhere specified".

The initials N.O.P. mean "not otherwise provided for".

The expression "ton" means two thousand pounds, and "cwt." one hundred pounds.

Throughout this report the expression "British Africa—West—Other" means all of British West Africa except Gambia, Gold Coast, Nigeria and Sierra Leone: "British East Indies—Other" means all the British East Indies except British India, Ceylon, and the Straits Settlements: "British West Indies—Other" means all the British West India Islands except Barbados, Jamaica and Trinidad and Tobago; while "British Oceania—Other" means all of British Oceania except the Australian Commonwealth, Fiji and New Zealand.

Prior to 1920 "Silver bullion in bars, blocks, ingots, drops, sheets and plates, unmanufactured" was included in "Coin and Bullion". Beginning with the fiscal year 1920 it is regarded as merchandise. In order to maintain the value of these tables for comparative purposes, the figures have been revised in accordance with this new arrangement. Consequently, the tables in this report will not agree in their totals of "Merchandise" and "Coin and Bullion" with similar tables published in Annual Trade Reports prior to 1920.

NOTES EXPLICATIVES

Partout où le mot “importations” se trouve dans ce volume, il signifie “marchandises importées pour la consommation”.

Les mots “importées pour la consommation” sont l'expression technique adoptée dans le service des douanes, et ne signifient pas que ces marchandises sont nécessairement employées au Canada, mais qu'elles ont été livrées à l'importateur qui a payé les droits lorsqu'il s'agit de marchandises imposables.

La valeur spécifiée pour les marchandises importées est le prix réel et exact qu'elles commandent sur les principaux marchés du pays d'où elles viennent et au moment de leur exportation directe de ce pays au Canada.

Les mots “produits canadiens” couvrent tous les articles importés qui ont été modifiés dans leur forme ou augmentés de valeur par l'industrie canadienne, comme le sucre raffiné au Canada provenant du sucre brut importé, la farine extraite de blé importé, et les articles construits ou fabriqués avec des matériaux importés.

Les mots “produits étrangers” désignent tous les articles importés de pays étrangers, puis réexportés.

La valeur des “produits canadiens” est la valeur réelle à la date de leur exportation, aux ports du Canada d'où ils sont expédiés.

La valeur des “produits étrangers” est le coût effectif de ces marchandises.

Les tableaux des importations et des exportations aux différents ports d'entrée qui figurent dans ce rapport, indiquent que ces marchandises sont passées par ces ports, soit à l'entrée, soit à la sortie, mais ne signifient pas qu'elles aient été consommées dans ces ports, ni qu'elles y aient eu leur origine.

Les initiales “n.s.a.” signifient “non spécifiés ailleurs”.

Les initiales “n.a.e.” signifient “non autrement énumérés”.

L'expression “tonne” signifie deux mille livres, et “qtl” cent livres.

Partout où elle est employée dans ce rapport l'expression “Afrique britannique de l'ouest—autre” embrasse la totalité de l'Afrique britannique de l'ouest, excepté la Gambie, la Côte d'Or, la Nigérie et Sierra Leone. “Indes orientales britanniques—autres” embrasse toutes les Indes orientales britanniques, à l'exception de l'Inde anglaise, Ceylan et les Etablissements des Détroits. “Antilles anglaises—autres” comprend toutes les îles des Antilles anglaises excepté les Barbades, la Jamaïque, Trinidad et Tobago. Enfin, “Océanie britannique—autre” embrasse toutes les possessions britanniques de l'Océanie, sauf l'Australie, les îles Fidji et la Nouvelle-Zélande.

Antérieurement à 1920, “l'argent en barres, saumons, lingots, lames, feuilles ou plaques, non ouvré”, se confondait avec “monnaies et lingots”, mais il est considéré comme une marchandise depuis le commencement de l'exercice 1920. Dans le but de conserver la possibilité de comparaison des tableaux, les chiffres ont dû être révisés, conformément au nouvel état de choses. C'est ce qui explique que les totaux des “Marchandises” et ceux des “Monnaies et lingots” que l'on trouvera dans les tableaux du présent rapport ne concordent pas exactement avec les chiffres donnés dans les rapports antérieurs à 1920.
